And What Have You

By BOB CRAIG

Received a note this week from Miss Lennie Greenway seeking some help with the Hamlin Cemetery. She needs the services of someone who owns a mower, not the push mower type, to cover some land in the East Cemetery.

She probably needs the help of some farmer who owns a shredder. Anyone able to help her out is urged to contact her at her home.

There was a recent meeting in Seminole that we wish we had attended. It was a hearing on the school financing problems being conducted by the West Texas Legislative Committee and was a "pulse feeling" session of area educators, board members and citizens.

This was similar to one held in Abilene not too long ago, but with one big difference — James Roberts, Andrews County News publisher did not attend the one in Abilene.

James is one of the few people we know that can speak just as effectively as he can write. From talking to some publisher friends that attended the meeting we understand that James did a pretty good job of breaking up the meeting.

The following is taken from his column the following week and gives a pretty good indication of what type of presentation he made to the committee:

"We enjoyed the legislative hearing over in Seminole Friday for the simple reason that it gave rank and file citizens an opportunity to sound off on the way they feel about the federal court ruling out of San Antonio declaring school financing in Texas unconstitutional.

"We were glad we had the opportunity to put in the record our comparison of federal judges with cockroaches: it's not what they eat and carry off but what they fall into and mess up!

"We agree with Dr. Norman Hallis declaration that there is no way quality of education can be equalized as long as different teachers are used to teach students of varying degrees of interest, of backgrounds, of motivation.

"Some steps should be taken to help poorer school districts in the state. . . as long as those school districts are not poor because of an unwillingness of the taxpayers to share a fair part of the burden.

"Our argument is with the Supreme Court — and those federal judges in San Antonio who ruled that the fruits of Texas property laws are unconstitutional because of the distribution system.

"If, as the San Antonio judges ruled, it is a Godgiven, U. S. Constitutional right for every child in Texas to have equal education, is it not just as equal a right for every child to have equal medical or health care?

"Yet we've not heard any superintendents from San Antonio, Dallas, Austin, Houston, Galveston or Corpus Christi express any dismay or sympathy because students in West Texas do not have equal medical facilities or personnel to match theirs!

"We've seen no great movement on the part of big cities to share their health, cultural, industrial, scenic, or sports program with students in West Texas.

"If equal education is a constitutional right, is not history part and parcel of quality education?

"Yet how can the students of Andrews truly absorb the historical significance of the Alamo in San Antonio when it is over 400 miles away. For Texas history education in Andrews to be equal to that of San Antonio, shouldn't we move the Alamo out here at least once during

TOP WINNERS — Boys winning the contest for selling the most tags for the support of Little League are, from left, Jon Bill Holtz, first place and received an aluminium bat, ball and glove; Lester Stewart, second, who won a glove and ball; and Waylon Collins, third, winner of a glove. A total of \$484 was raised during the project. The money will be used to purchase two center field lights, a flag pole and flag and make necessary repairs.

For House Seat—

County Chairmen to Meet Friday to Select Nominee

State Democratic Chairman Roy Orr is expected to attend a meeting in Abilene Friday to select a replacement in the November election for David Ratliff.

Ratliff won the Democratic nomination for House of Representatives, District 61, but last week withdrew his name after drawing much fire for alleged violations of state nepotism laws.

The meeting, which Orr has asked be closed to the press at the start, will be a committee of representatives, one from each of the five counties that make up the 61st District. Orr is expected to name a temporary committee chairman at the closed portion of the meeting. A permanent chairman will then be selected from among the five committee members.

The committee members will be the county chairmen from Jones, Fisher, Nolan and Mitchell Counties. Joe Lassiter of Merkel is the representative from the portion of Taylor County included in the district. Taylor County chairman Larry Cunningham does not live in the new district and thus is not eligible to serve on the selecting committee.

In addition to Orr, at least two other members of the State Democratic Executive Committee are expected to attend the meeting: French Robertson of Abilene and Mrs. R. W.

Herren of Haskell, executive committeeman and committeewoman for the 24th senatorial district.

The Friday meeting, called by Orr, will be at 1:30 p.m. in the Gold Room of the First State Bank.

Waste Paper Drive To Continue Here

The waste paper drive will continue indefinitely, according to Mrs. L. C. Bonds, secretary-manager of the Hamlin Board of Community Development.

The sale of waste paper collected and delivered up to this week has brought in \$260, she said.

The project was started in the spring to help finance the swimming pool. Proceeds of the drive will be used for this as long as necessary, Mrs. Bonds

said, then the money earned will be used for the recreation fund.

The waste paper is purchased by Celotex Corporation at the current price. The paper is

collected at the office of the BCD and delivered to Celotex between 1 and 3 p.m. on Wednesday and/or Thursday.

All persons are urged to participate in the project.

FROM THE FILES . . .

FORTY-THREE YEARS AGO
(June 14, 1929)

There are about 3,000 dairy cows over two years old in Jones County, and this number in all probability would be doubled if a plan of financial aid in purchasing were worked out and a good dairy product market established. This estimate is based on a survey made by the county agent recently in which 450 farmers out of 2,000 in the county answered questionnaires.

This week the work of grading Highway No. 4, and that of hard surfacing No. 93 was commenced. Ninety-three is the Hamlin-Stamford Highway and No. 4 is the Great Plains Highway, both running through Hamlin.

It is stated that No. 4 will receive a hard surface at an early date.

C. G. Green, Superintendent of Hamlin Schools and Earl Isbill, principal, are in Dallas this week looking after business.

Dr. S. E. Jones, Hamlin Fire Chief, B. B. Colwell, Fed Britton and Pistol Crow, all members of the Hamlin Volunteer Fire Department, left this week for Galveston where they will attend the Fireman's Convention, which is in session in that city.

For this trip the Katy Railway furnished free transportation and the City of Hamlin other expense money.

Starr Inzer, Ed Day and Luther Harden are at Corpus Christi this week on vacation. A letter from Starr states they are enjoying themselves hugely, and the big sea fish are biting with much gusto.

TWENTY YEARS AGO
(June 13, 1952)

More than 500 names of Hamlin area people were signed to a petition circulated during the past few days in Hamlin urging the exchange or release of American boys now held as prisoners of the Communist forces in North Korea.

First services in the newly organized Faith Methodist Church in Southeast Hamlin will be conducted Sunday, June 22, according to Rev. Orion Lewis, pastor of the new congregation.

The church was recently designated by the Northwest Texas Methodist Conference, meeting at Lubbock, as a new church for Hamlin. Memberships of the Celotex and Dovie Methodist Churches are being combined as the nucleus of the new congregation. Rev. Lewis comes to Hamlin from the Anson circuit, in which he formerly pastored the two churches.

Hamlin's new city water rates, evoked as emergency billings for water being shipped in during a shortage of water at the city lake south of town, went into effect Wednesday morning.

Minimum billing of \$2 will be made for 300 gallons of water under the new rate. Excess (over 300 gallons) will be

billed at 60 cents per 100 gallons.

Former rate for city water was \$2 minimum for 3,000 gallons, and 50 cents per 1,000 thereafter.

I. R. Huchingson, superintendent of Hamlin Schools, was elected Lions Club district governor for District 2-T at Brownwood meeting.

TEN YEARS AGO
(June 14, 1962)

Thunderstorms, hail, high winds and heavy rains have plagued West Texas for over a week with Hamlin seemingly being located virtually in the middle of the most of it. During June, 7.75 inches of rain have been recorded by Bill Rountree at the official rain gauge located at the city pump station.

The Rev. James P. Boswell, new pastor of the First Methodist Church, conducted his first services there Sunday. The Rev. Boswell and his family moved here Thursday from Plainview where he has been pastor of the Trinity Methodist Church for four years.

The Rev. Fred Brown began his fourth conference year as pastor of Faith Methodist Church here Sunday. His appointment to serve the local church was made at the recent annual conference held in Big Spring. An extended ministry was also projected as he will serve the McCaulley Methodist Church and the Neinda Methodist.

The Hamlin Riding Club Amateur Rodeo will be dedicated this year to the late Robert Johnson who worked diligently for the club's organization. The club had made plans for Mr. Johnson to be the guest of honor at the performances but his untimely death Friday, June 8, has called for an alteration of the original plans.

Formal dedication of the new sterile fly production plant at Mission, headquarters of the Southwest Screwworm Eradication Program, will be Saturday, June 16.

Jones County producers have played an important role in the completion of the plant by contributing \$5,600.00 of their own funds. All livestock producers and others interested in the eradication of screwworms are invited and urged to attend.

I don't know how serious the energy crisis is, but if it won't throw the whole country into darkness there ought to be one more use of this electric shock treatment.

It's a natural. Hook Congress up with a electrical gadget that sends a shock wave down every member's arm when he votes a tax increase, even if it

means building several new generation plants in the Washington area.

Have you ever stopped to think what it'd be like to have a non-smoking, non-over-eating, no tax voting Congress? It might be worth an extra tax to pay for the electric bill.

REACHING NEW

Heights

Man has explored most of the earth, and has now set out to conquer space.

While achieving these marvelous works, let us not forget our creator.

"When I consider thy heavens, the work of thy fingers, the moon and the stars, which thou hast ordained; what is man that thou art mindful of him? and the son of man, that thou visitest him? For thou hast made him a little lower than the angels, and hast crowned him with glory and honour. Thou madest him to have dominion over the works of thy hands; thou hast put all things under his feet..."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Marriages may be made in heaven, but it's hard to keep them heavenly when it's hotter than blazes.

That's where central gas air conditioning comes in. It can bring you together. All summer long. As close as you want. All summer long.

And it won't cost you much either. In fact, if you have gas heating in your home, you could easily have half a central air conditioning system already. Because you may be able to use the duct work and furnace blower you already have. That saves about fifty percent on installation costs.

That's just part of the savings. Gas costs less to operate than electricity. And gas air conditioning owners get special low rates during the long hot summer months.

But you'll save more than money with gas. You'll save time and energy, too. Because with central gas air conditioning there are fewer moving parts. Fewer breakdowns. Fewer repairs.

This summer, have central gas air conditioning installed. For love's sake.

Hamlin Oilers Now 2-5 In District Play

The Hamlin Oilers are now 2-5 in the district standings. The Sluggers trounced the Aspermont Hornets 25-1, but fell to the Rotan Cubs 5-3.

On the home field, the Oilers were playing like a team holding the Hornets scoreless after the one run they scored in the first inning. The Hitters scored four runs in the first round, five in the second, then scored 16 in the fifth inning to make the score 25-1.

In the game with the Cubs, the Oilers took an early lead in the first inning 2-0. Then the Cubs made a comeback with three runs in the second. The Sluggers scored only one more run for the night in the fifth inning, but couldn't catch the Cubs who scored two more runs in the third inning.

The Hamlin O's next game is June 30 in Aspermont leaving three more games on the schedule.

Field Demo

A field demonstration on control of blueweeds and silver leaf night shade will be held on the Burnia Reid Farm south of Hamlin starting at 9:30 a. m. Thursday, July 6, according to an announcement this week by Jones County Agent Kirby Clayton.

Agent Urges Early Season Insecticide Application

On Early Season Insecticide application for overwintered bollweevils and fleahoppers could mean the difference in a cotton crop and no crop at all this fall, says Jones County Agent Kirby Clayton.

Bollweevil counts were heavier this past fall than anytime in the past several years which means that many weevils went into hibernation. They are expected to come out in large numbers in this spring cotton crop. Several overwintered weevils have already been found feeding on cotton in the Funston, Truby and Noodle areas, says Clayton.

Clayton recommends one early season application of a mild insecticide when the cotton is 4 1/2 weeks of age and then stay out of the cotton to allow beneficial insects to build up. Timing of the application is all important, says the agent and

spraying too late in the season could bring on a bollworm infestation which would be most difficult to control.

Mr. and Mrs. Bob Craig and Rick attended the 93rd annual Texas Press Association convention at Corpus Christi Thursday through Saturday at Holiday Inn, Emerald Beach.

Son of Former Pastor Here Is Ordained

Victor Walker, son of Rev. and Mrs. Houston Walker, former Hamlin residents, was ordained to the gospel ministry Mar. 25 by the First Baptist Church, Black Canyon City, Ariz.

The service was held in the Community Building because of an overflow crowd from Arizona and California.

The young minister's father, pastor of First Southern Baptist Church in Avondale, Ariz., brought the charge to the candidate.

Rev. Houston Walker was pastor of First Baptist Church for several years some 15 years ago. He and his wife, Sarah, are leaving June 29 for Spain where he will be taking the place of a missionary in Spain for a year as pastor of the Immanuel Baptist Church, the only English-speaking church in Madrid.

Traffic Accidents Expected To Claim 58 Over Fourth

AUSTIN — Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today estimated that traffic accidents would claim 58 lives in Texas during the 102-hour July 4th holiday weekend from 6 p.m. Friday, June 30 to midnight Tuesday, July 4.

The DPS director said that if the holiday is typical, approximately one-third of the fatal accidents will involve only one vehicle.

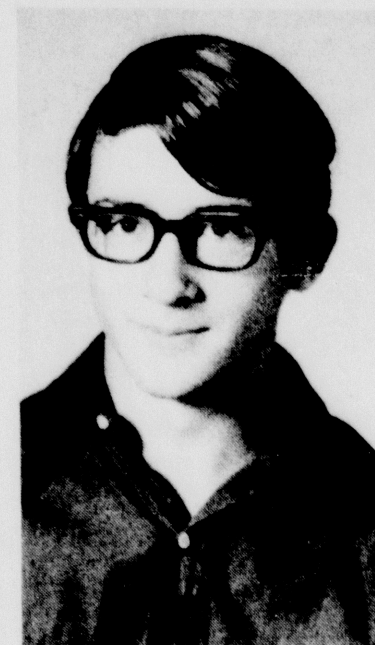

Traffic law violations will contribute to many of the fatal mishaps with the major factors including speed too fast for conditions and driving while intoxicated.

In an effort to hold the toll down, Speir said the DPS, local law enforcement agencies, and the news media of Texas will cooperate in a special "Operation Motorcade" program. Information on fatal collisions will be tabulated at DPS Headquarters in Austin

and released three times per day during the holidays in an effort to increase driver awareness.

All available Department of Public Safety patrolmen will be on duty, placing special emphasis on drinking and reckless drivers. Across the state, many city police departments and county sheriff's departments will have extra personnel assigned to intensified enforcement efforts.

"I urge all Texans and visitors to put on their best driving manners and actively join in the 'Operation Motorcade' effort so that this July 4th holiday might be as safe as possible," Speir said.

Johnny is an active member of the Hamlin FFA Chapter and is currently serving as the president of the Double Mountain District FFA Association.

Services Held Thursday for Arnold Tallent

Graveside rites for Arnold Roy Tallent, 65, were held at 5 p.m. Thursday in Hamlin Cemetery under the direction of McCoy Funeral Home.

"I urge all Texans and visitors to put on their best driving manners and actively join in the 'Operation Motorcade' effort so that this July 4th holiday might be as safe as possible," Speir said.

nesday by Aspermont Justice of the Peace Tina Hahn.

Sheriff Frank Poore of Stonewall County said Tallent had been missing since Sunday afternoon. His body was found by Fay Crow near a 30-foot power line pole. Tallent apparently fell from the pole, Sheriff Poore said.

Following an autopsy ordered by Mrs. Hahn, death was attributed to injuries sustained from a fall.

The Rev. Howard Jones, pastor of First Baptist Church, officiated.

Survivors include one daughter, six sons, one sister, two brothers and 16 grandchildren.
